

Both Sides Now – July News

Judy S., one of my wonderful customers, had a slight framing dilemma. She had an original painting on both sides of one sheet of paper. They were matted on each side so we added glass on each side and used one frame. The black frame is flat on both sides and finished on the back. Not all frames are stained on the back side, so this was a good choice. In order to hold the glass in on the back side without staples showing, I used a clear strip of plastic that sticks to the side of the frame. This only works if the picture is relatively small. She can enjoy **both sides now!**

“Have frames, will travel” is my slogan and it means that I will visit you for a free framing consultation and free delivery when your frame work is done. I am happy to come to your house, your office, or another location of your choosing. It is very helpful to select framing materials in the area where the picture will be hanging since it is easy to hold samples up for comparison.
