

Unusual Family Portrait – March News

“One year, the family didn't want to take our traditional family portrait but agreed to do self-portraits using ceramic tiles for me for my Christmas present that year. This was the result.”

My neighbor, Sindry, had four separate mosaics on wooden backs that she wanted to frame together. We used a piece of plywood for the back that she painted her wall color and we attached the portraits to it. Then we framed it in a verdigris frame that picked up the colors in her pictures. It is a very unique family portrait!

“Have frames, will travel” is my slogan and it means that I will visit you for a free framing consultation and free delivery when your frame work is done. I am happy to come to your house, your office, or another location of your choosing. It is very helpful to select framing materials in the area where the picture will be hanging since it is easy to hold samples up for comparison. You can trust me with your pictures because I have been framing for 42 years.
